Dear Chair DeLauro and Ranking Member Granger:

I am requesting funding for the Public Safety Information Sharing Technology Community Project in fiscal year 2023.

The entity to receive funding for this project is the Township of Chatham in the County of Morris, New Jersey, located at 58 Meyersville Road, Chatham, NJ 07928.

This funding would be used to leverage existing Chatham Township public safety technologies and improve information flow on a new, physical fiber optic network more than 11.28 miles in length. The aboveground fiber connection integrates public safety equipment in parks, streets and public spaces to technology in police headquarters for sharing with surrounding communities throughout Morris County and the State of New Jersey. The speed and capacity of the new network provides real time public safety data from current situational awareness cameras, license plate readers and other sensors to aid in investigating, responding to and preventing crime in the region.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Mikie Sherrill  
Member of Congress
